SECTION 3. [EFFECTIVE JULY 1, 2011]

FOR THE GENERAL ASSEMBLY

GENERAL GOVERNMENT

A. LEGISLATIVE

LEGISLATORS' SALARIES - HOUSE		
Total Operating Expense	5,378,880	5,378,880
HOUSE EXPENSES		
Total Operating Expense	9,430,305	9,830,305

Total Operating Expense	2,049,787	2,049,787
SENATE EXPENSES		
Total Operating Expense	8,856,335	10,056,335

Included in the above appropriations for house and senate expenses are funds for a legislative business per diem allowance, meals, and other usual and customary expenses associated with legislative affairs. Except as provided below, this allowance is to be paid to each member of the general assembly for every day, including Sundays, during which the general assembly is convened in regular or special session, commencing with the day the session is officially convened and concluding with the day the session is adjourned sine die. However, after five (5) consecutive days of recess, the legislative business per diem allowance is to be made on an individual voucher basis until the recess concludes.

allowance for every day the member is engaged in official business.

The legislative business per diem allowance that each member of the general assembly is entitled to receive equals the maximum daily amount allowable to employees of the executive branch of the federal government for subsistence expenses while away from home in travel status in the Indianapolis area. The legislative business per diem changes each time there is a change in that maximum daily amount.

In addition to the legislative business per diem allowance, each member of the general assembly shall receive the mileage allowance in an amount equal to the standard mileage rates for personally owned transportation equipment established by the federal Internal Revenue Service for each mile necessarily traveled from the member's usual place of residence to the state capitol. However, if the member traveled by a means other than by motor vehicle, and the member's usual place of residence is more than one hundred (100) miles from the state capitol, the member is entitled to reimbursement in an amount equal to the lowest air travel cost incurred in traveling from the usual place of residence to the state capitol. During the period the general assembly is convened in regular or special session, the mileage allowance shall be limited to one (1) round trip each week per member.

Any member of the general assembly who is appointed by the governor, speaker of the house, president or president pro tempore of the senate, house or senate minority floor leader, or Indiana legislative council to serve on any research, study, or survey committee or commission, or who attends any meetings authorized or convened under the auspices of the Indiana legislative council, including pre-session conferences and federal-state relations conferences, is entitled, when authorized by the legislative council, to receive the legislative business per diem allowance for each day the member is in actual attendance and is also entitled to a mileage allowance, at the rate specified above, for each mile necessarily traveled from the member's usual place of residence to the state capitol, or other in-state site of the committee, commission, or conference. The per diem allowance and the mileage allowance permitted under this paragraph shall be paid from the legislative council appropriation for legislator and lay member travel unless the member is attending an out-of-state meeting, as authorized by the speaker of the house of representatives or the president pro tempore of the senate, in which case the member is entitled to receive: (1) the legislative business per diem allowance for each day the member is engaged in approved out-of-state travel; and

(2) reimbursement for traveling expenses actually incurred in connection with the member's duties, as provided in the state travel policies and procedures established by the legislative council.

Notwithstanding the provisions of this or any other statute, the legislative council may adopt, by resolution, travel policies and procedures that apply only to members of the general assembly or to the staffs of the house of representatives, senate, and legislative services agency, or both members and staffs. The legislative council may apply these travel policies and procedures to lay members serving on research, study, or survey committees or commissions that are under the jurisdiction of the legislative council. Notwithstanding any other law, rule, or policy, the state travel policies and procedures established by the Indiana department of administration and approved

by the budget agency do not apply to members of the general assembly, to the staffs of the house of representatives, senate, or legislative services agency, or to lay members serving on research, study, or survey committees or commissions under the jurisdiction of the legislative council (if the legislative council applies its travel policies and procedures to lay members under the authority of this SECTION), except that, until the legislative council adopts travel policies and procedures, the state travel policies and procedures established by the Indiana department of administration and approved by the budget agency apply to members of the general assembly, to the staffs of the house of representatives, senate, and legislative services agency, and to lay members serving on research, study, or survey committees or commissions under the jurisdiction of the legislative council. The executive director of the legislative services agency is responsible for the administration of travel policies and procedures adopted by the legislative council. The auditor of state shall approve and process claims for reimbursement of travel related expenses under this paragraph based upon the written affirmation of the speaker of the house of representatives, the president pro tempore of the senate, or the executive director of the legislative services agency that those claims comply with the travel policies and procedures adopted by the legislative council. If the funds appropriated for the house and senate expenses and legislative salaries are insufficient to pay all the necessary expenses incurred, including the cost of printing the journals of the house and senate, there is appropriated such further sums as may be necessary to pay such expenses.

32 33 34

35

The above appropriations for full-day kindergarten are available to school corporations and charter schools that apply to the department of education for funding of full-day kindergarten. The amount available to a school corporation or charter school equals the amount appropriated divided by the total full day kindergarten enrollment of all participating school corporations and charter schools (as defined in IC 20-43-1-4) for the current year, and then multiplied by the school corporation's or charter school's full day kindergarten enrollment of eligible pupils (as defined in IC 20-43-1-11) for the current year. However, a school corporation or charter school may not receive more than \$2,500 dollars per student for full day kindergarten. A school corporation or charter school that is awarded a grant must provide to the department of education a financial report stating how the funds were spent. SECTION 13. [EFFECTIVE JULY 1, 2011]

The budget agency, under IC 4-10-11, IC 4-12-1-13, and IC 4-13-1, in cooperation with the Indiana department of administration, may fix the amount of reimbursement for traveling expenses (other than transportation) for travel within the limits of Indiana. This amount may not exceed actual lodging and miscellaneous expenses incurred. A person in travel status, as defined by the state travel policies and procedures established by the Indiana department of administration and the budget agency, is entitled to a meal allowance not to exceed during any twenty-four (24) hour period the standard meal allowances established by the federal Internal Revenue Service.

All appropriations provided by this act or any other statute, for traveling and hotel expenses for any department, officer, agent, employee, person, trustee, or commissioner, are to be used only for travel within the state of Indiana, unless those expenses are incurred in traveling outside the state of Indiana on trips that previously have received approval as required by the state travel policies and procedures established by the Indiana department of administration and the budget agency. With the required approval, a reimbursement for out-of-state travel expenses may be granted in an amount not to exceed actual lodging and miscellaneous expenses incurred. A person in travel status is entitled to a meal allowance not to exceed during any twenty-four (24) hour period the standard meal allowances established by the

federal Internal Revenue Service for properly approved travel within the continental United States and a minimum of \$50 during any twenty-four (24) hour period for properly approved travel outside the continental United States. However, while traveling in Japan, the minimum meal allowance shall not be less than \$90 for any twenty-four (24) hour period. - (2) Any other amount deposited in the school corporation's general fund.

(b) The total amount that may be transferred under subsection (a) in a calendar year to a particular conversion charter school may not exceed the result determined under STEP FOUR of the following formula:

STEP ONE: Determine the result of:

5

- (A) the amount of state tuition support that the school corporation is eligible to receive in the calendar year; divided by
- (B) the current ADM of the school corporation for the calendar year.

STEP TWO: Determine the result of:

- (A) the amount of state tuition support that the conversion charter school is eligible to receive in the calendar year; divided by
- (B) the current ADM of the conversion charter school for the calendar year.

STEP THREE: Determine the greater of zero (0) or result of:

- (A) the STEP ONE amount; minus
- (B) the STEP TWO amount.

- (A) the STEP THREE amount; multiplied by
- (B) the current ADM of the conversion charter school for the calendar year.

SECTION 63. IC 20-26-11-13, AS AMENDED BY P.L.146-2008, SECTION 471, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2012]: Sec. 13. (a) As used in this section, the following terms have the following meanings:

- (1) "Class of school" refers to a classification of each school or program in the transferee corporation by the grades or special programs taught at the school. Generally, these classifications are denominated as kindergarten, elementary school, middle school or junior high school, high school, and special schools or classes, such as schools or classes for special education, career and technical education, or career education.
- (2) "Special equipment" means equipment that during a school year:
 - (A) is used only when a child with disabilities is attending school;
 - (B) is not used to transport a child to or from a place where the child is attending school;
 - (C) is necessary for the education of each child with disabilities that uses the equipment, as determined under the individualized education program for the child; and
 - (D) is not used for or by any child who is not a child with disabilities.
- (3) "Student enrollment" means the following:
 - (A) The total number of students in kindergarten through grade 12 who are enrolled in a transferee school corporation on a date determined by the state board.
 - (B) The total number of students enrolled in a class of school in a transferee school corporation on a date determined by the state board.

However, a kindergarten student shall be counted under clauses (A) and (B) as one-half (1/2) student. The state board may select a different date for counts under this subdivision. However, the same date shall be used for all school corporations making a count for the same class of school.

- (b) Each transferee corporation is entitled to receive for each school year on account of each transferred student, except a student transferred under section 6 of this chapter, transfer tuition from the transferor corporation or the state as provided in this chapter. Transfer tuition equals the amount determined under STEP THREE of the following formula:
 - STEP ONE: Allocate to each transfer student the capital expenditures for any special equipment used by the transfer student and a proportionate share of the operating costs incurred by the transferee school for the class of school where the transfer student is enrolled.
 - STEP TWO: If the transferee school included the transfer student in the transferee school's ADM for a school year, allocate to the transfer student a proportionate share of the following general fund

revenues of the transferee school for, except as provided in clause (C), the calendar year in which the school year ends:

- (A) State tuition support distributions.
- (B) Property tax levies under IC 20-45-7 and IC 20-45-8.
- (C) The sum of the following excise tax revenue (as defined in IC 20-43-1-12) received for deposit in the calendar year in which the school year begins:
 - (i) Financial institution excise tax revenue (IC 6-5.5).
 - (ii) Motor vehicle excise taxes (IC 6-6-5).
 - (iii) Commercial vehicle excise taxes (IC 6-6-5.5).
 - (iv) Boat excise tax (IC 6-6-11).
 - (v) Aircraft license excise tax (IC 6-6-6.5).

STEP THREE: Determine the greater of:

(A) zero (0); or

(B) the result of subtracting the STEP TWO amount from the STEP ONE amount.

If a child is placed in an institution or facility in Indiana by or with the approval of the department of child services, the institution or facility shall charge the department of child services for the use of the space within the institution or facility (commonly called capital costs) that is used to provide educational services to the child based upon a prorated per student cost.

- (c) Operating costs shall be determined for each class of school where a transfer student is enrolled. The operating cost for each class of school is based on the total expenditures of the transferee corporation for the class of school from its general fund expenditures as specified in the classified budget forms prescribed by the state board of accounts. This calculation excludes:
 - (1) capital outlay;
 - (2) debt service;
 - (3) costs of transportation;
 - (4) salaries of board members;
 - (5) contracted service for legal expenses; and
- (6) any expenditure that is made from extracurricular account receipts; for the school year.
 - (d) The capital cost of special equipment for a school year is equal to:
 - (1) the cost of the special equipment; divided by
 - (2) the product of:
 - (A) the useful life of the special equipment, as determined under the rules adopted by the state board; multiplied by
 - (B) the number of students using the special equipment during at least part of the school year.
- (e) When an item of expense or cost described in subsection (c) cannot be allocated to a class of school, it shall be prorated to all classes of schools on the basis of the student enrollment of each class in the transferee corporation compared with the total student enrollment in the school corporation.
 - (f) Operating costs shall be allocated to a transfer student for each school year by dividing:
 - (1) the transferee school corporation's operating costs for the class of school in which the transfer student is enrolled; by
 - (2) the student enrollment of the class of school in which the transfer student is enrolled.
- When a transferred student is enrolled in a transferee corporation for less than the full school year of student attendance, the transfer tuition shall be calculated by the part of the school year for which the transferred student is enrolled. A school year of student attendance consists of the number of days school is in session for student attendance. A student, regardless of the student's attendance, is enrolled in a transferee school unless the student is no longer entitled to be transferred because of a change of

residence, the student has been excluded or expelled from school for the balance of the school year or for an indefinite period, or the student has been confirmed to have withdrawn from school. The transferor and the transferee corporation may enter into written agreements concerning the amount of transfer tuition due in any school year. If an agreement cannot be reached, the amount shall be determined by the state board, and costs may be established, when in dispute, by the state board of accounts.

- (g) A transferee school shall allocate revenues described in subsection (b) STEP TWO to a transfer student by dividing:
 - (1) the total amount of revenues received; by
 - (2) the ADM of the transferee school for the school year that ends in the calendar year in which the revenues are received.

However, for state tuition support distributions or any other state distribution computed using less than the total ADM of the transferee school, the transferee school shall allocate the revenues to the transfer student by dividing the revenues that the transferee school is eligible to receive in a calendar year by the student count used to compute the state distribution.

- (h) Instead of the payments provided in subsection (b), the transferor corporation or state owing transfer tuition may enter into a long term contract with the transferee corporation governing the transfer of students. The contract may:
 - (1) be entered into for a period of not more than five (5) years with an option to renew;
 - (2) specify a maximum number of students to be transferred; and
 - (3) fix a method for determining the amount of transfer tuition and the time of payment, which may be different from that provided in section 14 of this chapter.
- (i) A school corporation may negotiate transfer tuition agreements with a neighboring school corporation that can accommodate additional students. Agreements under this section may:
 - (1) be for one (1) year or longer; and
 - (2) fix a method for determining the amount of transfer tuition or time of payment that is different from the method, amount, or time of payment that is provided in this section or section 14 of this chapter.

A school corporation may not transfer a student under this section without the prior approval of the child's parent.

amount of state funds to be distributed to:

- (1) a school corporation other than a virtual charter school in any calendar year under this article for all grants, distributions, and awards described in IC 20-43-2-3; and

SECTION 68. IC 20-43-2-3, AS AMENDED BY P.L.182-2009(ss), SECTION 330, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2012]: Sec. 3. If the total amount to be distributed:

- (1) as basic tuition support;
- (2) for academic honors diploma awards;
- (3) for primetime distributions;
- (4) for special education grants; and
- (5) for career and technical education grants;
 - (6) for restoration grants; and
 - (7) for small school grants;

for a particular year exceeds the maximum state distribution for a calendar year, the amount to be distributed for state tuition support under this article to each school corporation during each of the last six (6) months of the year shall be proportionately reduced so that the total reductions equal the amount of the excess.

SECTION 69. IC 20-43-3-4, AS AMENDED BY P.L.182-2009(ss), SECTION 331, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2012]: Sec. 4. (a) This subsection applies to calendar year 2009. A school corporation's previous year revenue equals the amount determined under STEP TWO of the following formula:

STEP ONE: Determine the sum of the following:

- (A) The school corporation's basic tuition support for the year that precedes the current year.
- (B) The school corporation's maximum permissible tuition support levy for calendar year 2008.
- (C) The school corporation's excise tax revenue for calendar year 2007.

STEP TWO: Subtract from the STEP ONE result an amount equal to the reduction in the school corporation's state tuition support under any combination of subsection (c), subsection (d), IC 20-10.1-2-1 (before its repeal), or IC 20-30-2-4.

(b) This subsection applies to calendar years 2010 and 2011. A school corporation's previous year revenue equals the amount determined under STEP TWO of the following formula:

STEP ONE: Determine the sum of the following:

(A) The school corporation's basic tuition support actually received for the year that precedes

- 1 the current year. 2 (B) For calendar year 2010, the amount of education stabilization funds received by the school 3 corporation in calendar year 2009 under Section 14002(a) of the federal American Recovery and 4 Reinvestment Act of 2009 (ARRA). 5 (C) The amount of the annual decrease in federal aid to impacted areas from the year preceding 6 the ensuing calendar year by three (3) years to the year preceding the ensuing calendar year by 7 two (2) years. 8 (B) For 2012, the restoration grant (IC 20-43-12 (repealed)) actually received for 2011. 9 (C) For 2012, the small school grant (IC 20-43-12.2 (repealed)) actually received for 2011. 10 STEP TWO: Subtract from the STEP ONE result an amount equal to the reduction in the school 11 corporation's state tuition support under any combination of subsection (c) (b) or IC 20-30-2-4. 12 (c) (b) A school corporation's previous year revenue must be reduced if: 13 (1) the school corporation's state tuition support for special education or career and technical 14 education is reduced as a result of a complaint being filed with the department after December 31, 15 1988, because the school program overstated the number of children enrolled in special education 16 programs or career and technical education programs; and 17 (2) the school corporation's previous year revenue has not been reduced under this subsection more 18 than one (1) time because of a given overstatement. 19 The amount of the reduction equals the amount the school corporation would have received in state tuition 20 support for special education and career and technical education because of the overstatement. 21 (d) This section applies only to 2009. A school corporation's previous year revenue must be reduced 22 if an existing elementary or secondary school located in the school corporation converts to a charter 23 school under IC 20-24-11. The amount of the reduction equals the product of: 24 (1) the sum of the amounts distributed to the conversion charter school under IC 20-24-7-3(c) and 25 IC 20-24-7-3(d) (as effective December 31, 2008); multiplied by 26 (2) two (2). 27 SECTION 70. IC 20-43-4-7, AS AMENDED BY P.L.182-2009(ss), SECTION 332, IS AMENDED 28 TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2012]: Sec. 7. (a) This subsection does not apply 29 to a charter school. When calculating adjusted ADM for 2010 2012 distributions, this subsection, as 30 effective after December 31, 2009, 2011, shall be used to calculate the adjusted ADM for the previous 31 year rather than the calculation used to calculate adjusted ADM for 2009 2011 distributions. For purposes 32 of this article, a school corporation's "adjusted ADM" for the current year is the result determined under 33 the following formula: 34 STEP ONE: Determine the sum of the following: 35 (A) The school corporation's ADM for the year preceding the current year by two (2) years 36 divided by three (3). 37 (B) The school corporation's ADM for the year preceding the current year by one (1) year divided 38 by three (3). 39 (C) The school corporation's ADM for the current year divided by three (3). 40 STEP TWO: Determine the school corporation's ADM for the current year.
 - (A) The STEP ONE result.
 (B) The STEP TWO result.

STEP THREE: Determine the greater of the following:

- (b) A charter school's adjusted ADM for purposes of this article is the charter school's current ADM. school corporation's current ADM.

SECTION 87. IC 27-8-10-2.1, AS AMENDED BY P.L.1-2007, SECTION 186, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2011]: Sec. 2.1. (a) There is established a nonprofit legal entity to be referred to as the Indiana comprehensive health insurance association, which must assure that health insurance is made available throughout the year to each eligible Indiana resident applying to the association for coverage. All carriers, health maintenance organizations, limited service health maintenance organizations, and self-insurers providing health insurance or health care services in Indiana must be members of the association. The association shall operate under a plan of operation established and approved under subsection (c) and shall exercise its powers through a board of directors established under this section.

- (b) The board of directors of the association consists of nine (9) members whose principal residence is in Indiana selected as follows:

 - (2) Two (2) members to be appointed by the commissioner shall be consumers representing policyholders.
 - (3) Two (2) members shall be the state budget director or designee and the commissioner of the department of insurance or designee.
 - (4) One (1) member to be appointed by the commissioner must be a representative of health care providers.

The commissioner shall appoint the chairman of the board, and the board shall elect a secretary from its membership. (c) The association shall submit to the commissioner a plan of operation for the association and any amendments to the plan necessary or suitable to assure the fair, reasonable, and equitable administration of the association. The plan of operation becomes effective upon approval in writing by the commissioner consistent with the date on which the coverage under this chapter must be made available. The commissioner shall, after notice and hearing, approve the plan of operation if the plan is determined to

be suitable to assure the fair, reasonable, and equitable administration of the association and provides for the sharing of association losses on an equitable, proportionate basis among the member carriers, health maintenance organizations, limited service health maintenance organizations, and self-insurers. If the association fails to submit a suitable plan of operation within one hundred eighty (180) days after the appointment of the board of directors, or at any time thereafter the association fails to submit suitable amendments to the plan, the commissioner shall adopt rules under IC 4-22-2 necessary or advisable to implement this section. These rules are effective until modified by the commissioner or superseded by a plan submitted by the association and approved by the commissioner. The plan of operation must:

- (d) The plan of operation may provide that any of the powers and duties of the association be delegated to a person who will perform functions similar to those of this association. A delegation under this section takes effect only with the approval of both the board of directors and the commissioner. The commissioner may not approve a delegation unless the protections afforded to the insured are substantially equivalent to or greater than those provided under this chapter.
- (e) The association has the general powers and authority enumerated by this subsection in accordance with the plan of operation approved by the commissioner under subsection (c). The association has the general powers and authority granted under the laws of Indiana to carriers licensed to transact the kinds of health care services or health insurance described in section 1 of this chapter and also has the specific authority to do the following:
 - (1) Enter into contracts as are necessary or proper to carry out this chapter, subject to the approval of the commissioner.
 - (2) Subject to section 2.6 of this chapter, sue or be sued, including taking any legal actions necessary or proper for recovery of any assessments for, on behalf of, or against participating carriers.
 - (3) Take legal action necessary to avoid the payment of improper claims against the association or the coverage provided by or through the association.
 - (4) Establish a medical review committee to determine the reasonably appropriate level and extent of health care services in each instance.
 - (5) Establish appropriate rates, scales of rates, rate classifications and rating adjustments, such rates not to be unreasonable in relation to the coverage provided and the reasonable operational expenses of the association.
 - (6) Pool risks among members.
 - (7) Issue policies of insurance on an indemnity or provision of service basis providing the coverage required by this chapter.
- 44 (8) Administer separate pools, separate accounts, or other plans or arrangements considered appropriate for separate members or groups of members.

- (11) Hire an independent consultant.

- (12) Develop a method of advising applicants of the availability of other coverages outside the association.
- (13) Provide for the use of managed care plans for insureds, including the use of:
 - (A) health maintenance organizations; and
 - (B) preferred provider plans.
- (14) Solicit bids directly from providers for coverage under this chapter.
- (15) Subject to section 3 of this chapter, negotiate reimbursement rates and enter into contracts with individual health care providers and health care provider groups.
- (f) Rates for coverages issued by the association may not be unreasonable in relation to the benefits provided, the risk experience, and the reasonable expenses of providing the coverage. Separate scales of premium rates based on age apply for individual risks. Premium rates must take into consideration the extra morbidity and administration expenses, if any, for risks insured in the association. The rates for a given classification may must be equal to
 - (1) not more than one hundred fifty percent (150%) of the average premium rate for that class charged by the five (5) carriers with the largest premium volume in the state during the preceding calendar year. for an insured whose family income is less than three hundred fifty-one percent (351%) of the federal income poverty level for the same size family; and
 - (2) an amount equal to:
 - (A) not less than one hundred fifty-one percent (151%); and
 - (B) not more than two hundred percent (200%);

In determining the average rate of the five (5) largest carriers, the rates charged by the carriers shall be actuarially adjusted to determine the rate that would have been charged for benefits substantially identical to those issued by the association. All rates adopted by the association must be submitted to the commissioner for approval.
- (g) Following the close of the association's fiscal year, the association shall determine the net premiums, the expenses of administration, and the incurred losses for the year. Twenty-five percent (25%) of any net loss shall be assessed by the association to all members in proportion to their respective shares of total health insurance premiums as reported to the department of insurance, excluding premiums for Medicaid contracts with the state of Indiana, received in Indiana during the calendar year (or with paid losses in the year) coinciding with or ending during the fiscal year of the association. Seventy-five percent (75%) of any net loss shall be paid by the state. In sharing losses, the association may abate or defer in any part the assessment of a member, if, in the opinion of the board, payment of the assessment would endanger the ability of the member to fulfill its contractual obligations. The association may also provide for interim assessments against members of the association if necessary to assure the financial capability of the association to meet the incurred or estimated claims expenses or operating expenses of the association until the association's next fiscal year is completed. Net gains, if any, must be held at interest to offset future losses or allocated to reduce future premiums. Assessments must be determined by the board members specified in subsection (b)(1), subject to final approval by the commissioner.
- (h) The association shall conduct periodic audits to assure the general accuracy of the financial data submitted to the association, and the association shall have an annual audit of its operations by an

independent certified public accountant.

- (i) The association is subject to examination by the department of insurance under IC 27-1-3.1. The board of directors shall submit, not later than March 30 of each year, a financial report for the preceding calendar year in a form approved by the commissioner.
- (j) All policy forms issued by the association must conform in substance to prototype forms developed by the association, must in all other respects conform to the requirements of this chapter, and must be filed with and approved by the commissioner before their use.
- (k) The association may not issue an association policy to any individual who, on the effective date of the coverage applied for, does not meet the eligibility requirements of section 5.1 of this chapter.
- (l) The association and the premium collected by the association shall be exempt from the premium tax, the adjusted gross income tax, or any combination of these upon revenues or income that may be imposed by the state.
- (m) Members who, during any calendar year, have paid one (1) or more assessments levied under this chapter may include in the rates for premiums charged for insurance policies to which this chapter applies amounts sufficient to recoup a sum equal to the amounts paid to the association by the member less any amounts returned to the member insurer by the association, and the rates shall not be deemed excessive by virtue of including an amount reasonably calculated to recoup assessments paid by the member.
 - (n) The association shall provide for the option of monthly collection of premiums.
- (o) The association shall periodically certify to the budget agency the amount necessary to pay seventy-five percent (75%) of any net loss as specified in subsection (g).

- 10 (10) Prostheses, other than dental.
- (11) Rental of durable medical equipment which has no personal use in the absence of the condition
 for which prescribed.
 - (12) Diagnostic X-rays and laboratory tests.
 - (13) Oral surgery for:
 - (A) excision of partially or completely erupted impacted teeth;
 - (B) excision of a tooth root without the extraction of the entire tooth; or
 - (C) the gums and tissues of the mouth when not performed in connection with the extraction or repair of teeth.
 - (14) Services of a physical therapist and services of a speech therapist.
 - (15) Professional ambulance services to the nearest health care facility qualified to treat the illness or injury.
 - (16) Other medical supplies required by a physician's orders.

An association policy may also include comparable benefits for those who rely upon spiritual means through prayer alone for healing upon such conditions, limitations, and requirements as may be determined by the board of directors.

- (c) A managed care organization that issues an association policy may not refuse to enter into an agreement with a hospital solely because the hospital has not obtained accreditation from an accreditation organization that:
 - (1) establishes standards for the organization and operation of hospitals;
 - (2) requires the hospital to undergo a survey process for a fee paid by the hospital; and
 - (3) was organized and formed in 1951.
- (d) This section does not prohibit a managed care organization from using performance indicators or quality standards that:
 - (1) are developed by private organizations; and
 - (2) do not rely upon a survey process for a fee charged to the hospital to evaluate performance.
- (e) For purposes of this section, if benefits are provided in the form of services rather than cash payments, their value shall be determined on the basis of their monetary equivalency.
 - (f) The following are not eligible expenses in any association policy within the scope of this chapter:
 - (1) Services for which a charge is not made in the absence of insurance or for which there is no legal obligation on the part of the patient to pay.
 - (2) Services and charges made for benefits provided under the laws of the United States, including Medicare and Medicaid, military service connected disabilities, medical services provided for members of the armed forces and their dependents or for employees of the armed forces of the United States, medical services financed in the future on behalf of all citizens by the United States.
- (3) Benefits which would duplicate the provision of services or payment of charges for any care for injury or disease either:
 - (A) arising out of and in the course of an employment subject to a worker's compensation or

similar law; or

(B) for which benefits are payable without regard to fault under a coverage statutorily required to be contained in any motor vehicle or other liability insurance policy or equivalent self-insurance.

However, this subdivision does not authorize exclusion of charges that exceed the benefits payable under the applicable worker's compensation or no-fault coverage.

- (4) Care which is primarily for a custodial or domiciliary purpose.
- (5) Cosmetic surgery unless provided as a result of an injury or medically necessary surgical procedure.
- (6) Any charge for services or articles the provision of which is not within the scope of the license or certificate of the institution or individual rendering the services.
- (g) The coverage and benefit requirements of this section for association policies may not be altered by any other inconsistent state law without specific reference to this chapter indicating a legislative intent to add or delete from the coverage requirements of this chapter.
- (h) This chapter does not prohibit the association from issuing additional types of health insurance policies with different types of benefits that, in the opinion of the board of directors, may be of benefit to the citizens of Indiana.
- (i) This chapter does not prohibit the association or its administrator from implementing uniform procedures to review the medical necessity and cost effectiveness of proposed treatment, confinement, tests, or other medical procedures. Those procedures may take the form of preadmission review for nonemergency hospitalization, case management review to verify that covered individuals are aware of treatment alternatives, or other forms of utilization review. Any cost containment techniques of this type must be adopted by the board of directors and approved by the commissioner.

SECTION 89. IC 27-8-10-5.1, AS AMENDED BY P.L.3-2008, SECTION 213, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2011]: Sec. 5.1. (a) A person is not eligible for an association policy if the person is eligible for Medicaid. any of the coverage described in subdivisions (1) and (2). A person other than a federally eligible individual may not apply for an association policy unless the person has applied for:

- (1) Medicaid; and
- (2) coverage under the:
 - (A) preexisting condition insurance plan program established by the Secretary of Health and Human Services under Section 1101 of Title I of the federal Patient Protection and Affordable Care Act (P.L. 111-148); and
 - (B) Indiana check-up plan under IC 12-15-44.2;
- not more than sixty (60) days before applying for the association policy.
- (b) Except as provided in subsection (c), a person is not eligible for an association policy if, at the effective date of coverage, the person has or is eligible for coverage under any insurance plan that equals or exceeds the minimum requirements for accident and sickness insurance policies issued in Indiana as set forth in IC 27. However, an offer of coverage described in IC 27-8-5-2.5(e) (expired July 1, 2007, and removed), IC 27-8-5-2.7, IC 27-8-5-19.2(e) (expired July 1, 2007, and repealed), or IC 27-8-5-19.3 does not affect an individual's eligibility for an association policy under this subsection. Coverage under any association policy is in excess of, and may not duplicate, coverage under any other form of health insurance.
- (c) Except as provided in IC 27-13-16-4 and subsection (a), a person is eligible for an association policy upon a showing that:
 - (1) the person has been rejected by one (1) carrier for coverage under any insurance plan that equals or exceeds the minimum requirements for accident and sickness insurance policies issued in Indiana, as set forth in IC 27, without material underwriting restrictions;

- (2) an insurer has refused to issue insurance except at a rate exceeding the association plan rate; or
- (3) the person is a federally eligible individual.

For the purposes of this subsection, eligibility for Medicare coverage does not disqualify a person who is less than sixty-five (65) years of age from eligibility for an association policy.

- (d) Coverage under an association policy terminates as follows:
 - (1) On the first date on which an insured is no longer a resident of Indiana.
 - (2) On the date on which an insured requests cancellation of the association policy.
 - (3) On the date of the death of an insured.
 - (4) At the end of the policy period for which the premium has been paid.
 - (5) On the first date on which the insured no longer meets the eligibility requirements under this section.
- (e) An association policy must provide that coverage of a dependent unmarried child terminates when the child becomes nineteen (19) years of age (or twenty-five (25) years of age if the child is enrolled full time in an accredited educational institution). The policy must also provide in substance that attainment of the limiting age does not operate to terminate a dependent unmarried child's coverage while the dependent is and continues to be both:
 - (1) incapable of self-sustaining employment by reason of mental retardation or mental or physical disability; and
 - (2) chiefly dependent upon the person in whose name the contract is issued for support and maintenance.

However, proof of such incapacity and dependency must be furnished to the carrier within one hundred twenty (120) days of the child's attainment of the limiting age, and subsequently as may be required by the carrier, but not more frequently than annually after the two (2) year period following the child's attainment of the limiting age.

- (f) An association policy that provides coverage for a family member of the person in whose name the contract is issued must, as to the family member's coverage, also provide that the health insurance benefits applicable for children are payable with respect to a newly born child of the person in whose name the contract is issued from the moment of birth. The coverage for newly born children must consist of coverage of injury or illness, including the necessary care and treatment of medically diagnosed congenital defects and birth abnormalities. If payment of a specific premium is required to provide coverage for the child, the contract may require that notification of the birth of a child and payment of the required premium must be furnished to the carrier within thirty-one (31) days after the date of birth in order to have the coverage continued beyond the thirty-one (31) day period.
- (g) Except as provided in subsection (h), an association policy may contain provisions under which coverage is excluded during a period of three (3) months following the effective date of coverage as to a given covered individual for preexisting conditions, as long as medical advice or treatment was recommended or received within a period of three (3) months before the effective date of coverage. This subsection may not be construed to prohibit preexisting condition provisions in an insurance policy that are more favorable to the insured.
- (h) If a person applies for an association policy within six (6) months after termination of the person's coverage under a health insurance arrangement and the person meets the eligibility requirements of subsection (c), then an association policy may not contain provisions under which:
 - (1) coverage as to a given individual is delayed to a date after the effective date or excluded from the policy; or
- (2) coverage as to a given condition is denied;
- on the basis of a preexisting health condition. This subsection may not be construed to prohibit preexisting condition provisions in an insurance policy that are more favorable to the insured.

(i) For purposes of this section, coverage under a health insurance arrangement includes, but is not limited to, coverage pursuant to the Consolidated Omnibus Budget Reconciliation Act of 1985.

SECTION 90. IC 33-38-5-8.1, AS ADDED BY P.L.159-2005, SECTION 3, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 8.1. (a) Beginning July 1, 2006, Subject to subsection (f), the part of the total salary of an official:

(1) paid by the state; and

- (f) An individual is not entitled to receive a salary or benefit increase under this section in a state fiscal year beginning after June 30, 2011, and ending before July 1, 2013, regardless of whether state employees described in subsection (b) received a statewide average salary increase. The salaries and benefits to which this subsection applies include the following:

A caterer or other contractor is not required to collect or remit taxes under IC 6-2.5 or IC 6-9 for a transaction that is exempt under this SECTION. If the Council of State Governments provides an exemption certificate issued under IC 6-2.5 to a caterer or other contractor for a transaction that is exempt under this SECTION, the caterer or other contractor shall not collect or remit any taxes that would otherwise be imposed under IC 6-2.5 or IC 6-9 for the transaction.

- (b) The exemption provided under this SECTION does not apply to any purchase by attendees that is not paid for directly by the Council of State Governments.
 - (c) The general assembly finds that:
 - (1) the general assembly is a member of the Council of State Governments and the host for the Midwestern Legislative Conference to be held in July 2011;

SECTION 95. [EFFECTIVE JULY 1, 2011] (a) The general assembly finds that the revenue forecast technical committee, using the best information available, estimates that the amount certified for distribution to counties under IC 6-3.5-1.1, IC 6-3.5-6, and IC 6-3.5-7 in state fiscal years 2009, 2010, and 2011 will have exceeded the amount of adjusted gross income taxes, county option income taxes, and county economic development income taxes collected from county taxpayers by six hundred nine million seven hundred thousand dollars (\$609,700,000). Under IC 6-3.5-1.1-9(c), IC 6-3.5-6-17(c), and IC 6-3.5-7-11(d), the budget agency is directed to reduce certified distributions in calendar years 2012, 2013, and 2014 by a total of four hundred eight million two hundred seventy-six thousand dollars (\$408,276,000) to those counties to which overpayments were made. The amount shall be recovered and allocated among the various purposes for which taxes were imposed, as determined by the budget agency. The budget agency may not make a supplemental distribution under IC 6-3.5-1.1-21.1, IC 6-3.5-6-17.3, or IC 6-3.5-7-17.3 while the county's certified distribution is being reduced under this SECTION.

- (b) This SECTION expires July 1, 2015.
- 19 SECTION 96. An emergency is declared for this act.

"SECTION 60. IC 20-24-7-6.5 IS ADDED TO THE INDIANA CODE AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2011]: Sec. 6.5. (a) Subject to subsection (b) and with the approval of a majority of the members of the governing body, a school corporation may distribute any part of the following to a conversion school sponsored by the school corporation in the amount and under the terms and conditions adopted by a majority of the members of the governing body:

- (1) State tuition support and other state distributions to the school corporation.
- (2) Any other amount deposited in the school corporation's general fund.
- (b) The total amount that may be transferred under subsection (a) in a calendar year to a particular conversion charter school may not exceed the result determined under STEP FOUR of the following formula:

STEP ONE: Determine the result of:

- (A) the amount of state tuition support that the school corporation is eligible to receive in the calendar year; divided by
- (B) the current ADM of the school corporation for the calendar year.

STEP TWO: Determine the result of:

- (A) the amount of state tuition support that the conversion charter school is eligible to receive in the calendar year; divided by
- (B) the current ADM of the conversion charter school for the calendar year.

STEP THREE: Determine the greater of zero (0) or result of:

- (A) the STEP ONE amount; minus
- (B) the STEP TWO amount.

STEP FOUR: Determine the result of:

(A) the STEP THREE amount; multiplied by

(B) the current ADM of the conversion charter school for the calendar year.

SECTION 61. IC 20-26-11-13, AS AMENDED BY P.L.146-2008, SECTION 471, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2012]: Sec. 13. (a) As used in this section, the following terms have the following meanings:

- (1) "Class of school" refers to a classification of each school or program in the transferee corporation by the grades or special programs taught at the school. Generally, these classifications are denominated as kindergarten, elementary school, middle school or junior high school, high school, and special schools or classes, such as schools or classes for special education, career and technical education, or career education.
- (2) "Special equipment" means equipment that during a school year:
 - (A) is used only when a child with disabilities is attending school:
 - (B) is not used to transport a child to or from a place where the child is attending school;
 - (C) is necessary for the education of each child with disabilities that uses the equipment, as determined under the individualized education program for the child; and
 - (D) is not used for or by any child who is not a child with disabilities.
- (3) "Student enrollment" means the following:
 - (A) The total number of students in kindergarten through grade 12 who are enrolled in a transferee school corporation on a date determined by the state board.
 - (B) The total number of students enrolled in a class of school in a transferee school corporation on a date determined by the state board.

However, a kindergarten student shall be counted under clauses (A) and (B) as one-half (1/2) student. The state board may select a different date for counts under this subdivision. However, the same date shall be used for all school corporations making a count for the same class of school.

(b) Each transferee corporation is entitled to receive for each school year on account of each transferred student, except a student transferred under section 6 of this chapter, transfer tuition from the transferor corporation or the state as provided in this chapter. Transfer tuition equals the amount determined under STEP THREE of the following formula:

STEP ONE: Allocate to each transfer student the capital expenditures for any special equipment used by the transfer student and a proportionate share of the operating costs incurred by the transferee school for the class of school where the transfer student is enrolled.

STEP TWO: If the transferee school included the transfer student in the transferee school's ADM for a school year, allocate to the transfer student a proportionate share of the following general fund revenues of the transferee school for, except as provided in clause (C), the calendar year in which the school year ends:

- (A) State tuition support distributions.
- (B) Property tax levies under IC 20-45-7 and IC 20-45-8.
- (C) The sum of the following excise tax revenue (as defined in IC 20-43-1-12) received for deposit in the calendar year in which the school year begins:
 - (i) Financial institution excise tax revenue (IC 6-5.5).
 - (ii) Motor vehicle excise taxes (IC 6-6-5).
 - (iii) Commercial vehicle excise taxes (IC 6-6-5.5).
 - (iv) Boat excise tax (IC 6-6-11).
 - (v) Aircraft license excise tax (IC 6-6-6.5).
- (D) Allocations to the transferee school under IC 6-3.5.

STEP THREE: Determine the greater of:

- (A) zero (0); or
- (B) the result of subtracting the STEP TWO amount from the STEP ONE amount.

If a child is placed in an institution or facility in Indiana by or with the approval of the department of child services, the institution or facility shall charge the department of child services for the use of the space within the institution or facility (commonly called capital costs) that is used to provide educational services to the child based upon a prorated per student cost.

- (c) Operating costs shall be determined for each class of school where a transfer student is enrolled. The operating cost for each class of school is based on the total expenditures of the transferee corporation for the class of school from its general fund expenditures as specified in the classified budget forms prescribed by the state board of accounts. This calculation excludes:
 - (1) capital outlay;
 - (2) debt service;
 - (3) costs of transportation;
 - (4) salaries of board members;
 - (5) contracted service for legal expenses; and
 - (6) any expenditure that is made from extracurricular account receipts;

for the school year.

- (d) The capital cost of special equipment for a school year is equal to:
 - (1) the cost of the special equipment; divided by
 - (2) the product of:
 - (A) the useful life of the special equipment, as determined under the rules adopted by the state board; multiplied by
 - (B) the number of students using the special equipment during at least part of the school year.

- (e) When an item of expense or cost described in subsection (c) cannot be allocated to a class of school, it shall be prorated to all classes of schools on the basis of the student enrollment of each class in the transferee corporation compared with the total student enrollment in the school corporation.
- (f) Operating costs shall be allocated to a transfer student for each school year by dividing:
 - (1) the transferee school corporation's operating costs for the class of school in which the transfer student is enrolled; by
 - (2) the student enrollment of the class of school in which the transfer student is enrolled.

When a transferred student is enrolled in a transferee corporation for less than the full school year of student attendance, the transfer tuition shall be calculated by the part of the school year for which the transferred student is enrolled. A school year of student attendance consists of the number of days school is in session for student attendance. A student, regardless of the student's attendance, is enrolled in a transferee school unless the student is no longer entitled to be transferred because of a change of residence, the student has been excluded or expelled from school for the balance of the school year or for an indefinite period, or the student has been confirmed to have withdrawn from school. The transferor and the transferee corporation may enter into written agreements concerning the amount of transfer tuition due in any school year. If an agreement cannot be reached, the amount shall be determined by the state board, and costs may be established, when in dispute, by the state board of accounts.

- (g) A transferee school shall allocate revenues described in subsection (b) STEP TWO to a transfer student by dividing:
 - (1) the total amount of revenues received; by
 - (2) the ADM of the transferee school for the school year that ends in the calendar year in which the revenues are received.

However, for state tuition support distributions or any other state distribution computed using less than the total ADM of the transferee school, the transferee school shall allocate the revenues to the transfer student by dividing the revenues that the transferee school is eligible to receive in a calendar year by the student count used to compute the state distribution.

- (h) Instead of the payments provided in subsection (b), the transferor corporation or state owing transfer tuition may enter into a long term contract with the transferee corporation governing the transfer of students. The contract may:
 - (1) be entered into for a period of not more than five (5) years with an option to renew;
 - (2) specify a maximum number of students to be transferred; and
 - (3) fix a method for determining the amount of transfer tuition and the time of payment, which may be different from that provided in section 14 of this chapter.

- (i) A school corporation may negotiate transfer tuition agreements with a neighboring school corporation that can accommodate additional students. Agreements under this section may:
 - (1) be for one (1) year or longer; and
 - (2) fix a method for determining the amount of transfer tuition or time of payment that is different from the method, amount, or time of payment that is provided in this section or section 14 of this chapter.

A school corporation may not transfer a student under this section without the prior approval of the child's parent.

SECTION 67. IC 20-43-3-4, AS AMENDED BY P.L.182-2009(ss), SECTION 331, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2012]: Sec. 4. (a) This subsection applies to calendar year 2009. A school corporation's previous year revenue equals the amount determined under STEP TWO of the following formula:

STEP ONE: Determine the sum of the following:

- (A) The school corporation's basic tuition support for the year that precedes the current year.
- (B) The school corporation's maximum permissible tuition support levy for calendar year 2008.
- (C) The school corporation's excise tax revenue for calendar year 2007.

STEP TWO: Subtract from the STEP ONE result an amount equal to the reduction in the school corporation's state tuition support under any combination of subsection (c), subsection (d), IC 20-10.1-2-1 (before its repeal), or IC 20-30-2-4.

(b) This subsection applies to calendar years 2010 and 2011. A school corporation's previous year revenue equals the amount determined under STEP TWO of the following formula:

STEP ONE: Determine the sum of the following:

(A) The school corporation's basic tuition support **actually** received for the year that precedes the current year.

- (B) For calendar year 2010, the amount of education stabilization funds received by the school corporation in calendar year 2009 under Section 14002(a) of the federal American Recovery and Reinvestment Act of 2009 (ARRA). (C) The amount of the annual decrease in federal aid to impacted areas from the year preceding the ensuing calendar year by three (3) years to the year preceding the ensuing calendar year by two (2) years.
- (B) For 2012, the restoration grant (IC 20-43-12 (repealed)) actually received for 2011.
- (C) For 2012, the small school grant (IC 20-43-12.2 (repealed)) actually received for 2011.

STEP TWO: Subtract from the STEP ONE result an amount equal to the reduction in the school corporation's state tuition support under any combination of subsection (c) (b) or IC 20-30-2-4.

- (c) (b) A school corporation's previous year revenue must be reduced if:
 - (1) the school corporation's state tuition support for special education or career and technical education is reduced as a result of a complaint being filed with the department after December 31, 1988, because the school program overstated the number of children enrolled in special education programs or career and technical education programs; and
 - (2) the school corporation's previous year revenue has not been reduced under this subsection more than one (1) time because of a given overstatement.

The amount of the reduction equals the amount the school corporation would have received in state tuition support for special education and career and technical education because of the overstatement.

- (d) This section applies only to 2009. A school corporation's previous year revenue must be reduced if an existing elementary or secondary school located in the school corporation converts to a charter school under IC 20-24-11. The amount of the reduction equals the product of:
 - (1) the sum of the amounts distributed to the conversion charter school under IC 20-24-7-3(c) and IC 20-24-7-3(d) (as effective December 31, 2008); multiplied by
 - (2) two (2).

SECTION 68. IC 20-43-4-7, AS AMENDED BY P.L.182-2009(ss), SECTION 332, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2012]: Sec. 7. (a) This subsection does not apply to a charter school. When calculating adjusted ADM for 2010 2012 distributions, this subsection, as effective after December 31, 2009, 2011, shall be used to calculate the adjusted ADM for the previous year rather than the calculation used to calculate adjusted ADM for 2009 2011 distributions. For purposes of this article, a school corporation's "adjusted ADM" for the current year is the result

determined under the following formula:

STEP ONE: Determine the sum of the following:

- (A) The school corporation's ADM for the year preceding the current year by two (2) years divided by three (3).
- (B) The school corporation's ADM for the year preceding the current year by one (1) year divided by three (3).
- (C) The school corporation's ADM for the current year divided by three (3).

STEP TWO: Determine the school corporation's ADM for the current year.

STEP THREE: Determine the greater of the following:

- (A) The STEP ONE result.
- (B) The STEP TWO result.
- (b) A charter school's adjusted ADM for purposes of this article is the charter school's current ADM. school corporation's current ADM.

 - (A) 2007 for purposes of determining the complexity index in 2009, and 2009 2011 for the purposes of determining the complexity index in 2010 2012 and 2011; 2013; or
 - (B) the first year of operation of the school corporation.
- (2) Determine the quotient of:
 - (A) in 2009:

- (2) Determine the result of:
 - (A) the STEP TWO result; plus
 - (B) the subdivision (1) result.

The data to be used in making the calculations under STEP ONE must be the data collected in the annual pupil enrollment count by the department.

SECTION 70. [EFFECTIVE UPON PASSAGE] (a) The Council of State Governments is exempt from the gross retail and use taxes imposed under IC 6-2.5 for any transaction in which food or beverage is furnished, prepared, or served to any person under a contract with the Council of State Governments in connection with the sixty-sixth annual meeting of the Midwestern Legislative Conference to be held in July 2011. A caterer or other contractor is not required to collect or remit taxes under IC 6-2.5 or IC 6-9 for a transaction that is exempt under this SECTION. If the Council of State Governments provides an exemption certificate issued under IC 6-2.5 to a caterer or other contractor for a transaction that is exempt under this SECTION, the caterer or other contractor shall not collect or remit any taxes that would otherwise be imposed under IC 6-2.5 or IC 6-9 for the transaction.

- (b) The exemption provided under this SECTION does not apply to any purchase by attendees that is not paid for directly by the Council of State Governments.
 - (c) The general assembly finds that:
 - (1) the general assembly is a member of the Council of State Governments and the host for the Midwestern Legislative Conference to be held in July 2011;
 - (2) notwithstanding the exemptions provided in this SECTION, the sixty-sixth annual meeting of the Midwestern Legislative Conference will generate a significant economic impact for Indiana and additional revenues from taxes affected by this SECTION; and
 - (3) the exemptions provided in this SECTION will not reduce or adversely affect the levy and collection of taxes pledged to the payment of bonds, notes, leases, or subleases payable from those taxes.
 - (d) This SECTION expires September 1, 2011.

SECTION 71. [EFFECTIVE JULY 1, 2011] (a) As used in this SECTION, "combined state reserves" means the sum of the unencumbered balances in the following funds:

(1) The state general fund, including the Medicaid

contingency and reserve account of the state general fund.

- (2) The counter-cyclical revenue and economic stabilization fund.
- (3) The state tuition reserve fund.
- (b) This subsection applies if the combined state reserves on June 30, 2012, exceed three percent (3%) of the sum of the amount appropriated for the immediately following state fiscal year. Before August 1, 2012, the budget agency shall transfer fifty million dollars (\$50,000,000) from the state general fund to the state tuition reserve fund established by IC 4-12-1-15.7 for purposes of the state tuition reserve fund.
- (c) This subsection applies if the combined state reserves on June 30, 2013, exceed three percent (3%) of the sum of the amount appropriated for the immediately following state fiscal year. Before August 1, 2013, the budget agency shall transfer fifty million dollars (\$50,000,000) from the state general fund to the state tuition reserve fund established by IC 4-12-1-15.7 for purposes of the state tuition reserve fund.
 - (d) This SECTION expires August 1, 2013.

SECTION 72. [EFFECTIVE JULY 1, 2011] (a) The general assembly finds that the revenue forecast technical committee, using the best information available, estimates that the amount certified for distribution to counties under IC 6-3.5-1.1, IC 6-3.5-6, and IC 6-3.5-7 in state fiscal years 2009, 2010, and 2011 will have exceeded the amount of adjusted gross income taxes, county option income taxes, and county economic development income taxes collected from county taxpayers by six hundred nine million seven hundred thousand dollars (\$609,700,000). Under IC 6-3.5-1.1-9(c), IC 6-3.5-6-17(c), and IC 6-3.5-7-11(d), the budget agency is directed to reduce certified distributions in calendar years 2012, 2013, and 2014 by a total of four hundred eight million two hundred seventy-six thousand dollars (\$408,276,000) to those counties to which overpayments were made. The amount shall be recovered and allocated among the various purposes for which taxes were imposed, as determined by the budget agency. The budget agency may not make a supplemental distribution under IC 6-3.5-1.1-21.1, IC 6-3.5-6-17.3, or IC 6-3.5-7-17.3 while the county's certified distribution is being reduced under this SECTION.
